COMPANY

A family business

PM-International is a direct sales company in the areas of health, fitness, and beauty.

We offer premium quality nutritional supplements for the inside with FitLine (basic and specific supplementation, weight management products, sport products) and cosmetic products for the outside, with FitLine med and skin.

Founded in 1993 by Rolf Sorg, PM-International understood how to combine the exact key elements that make up a successful company: unique and innovative product concepts as well as highly efficient network marketing.

This made PM-International rapidly and significantly grow to reach an annual

turnover of US\$ 1 billion in 2019, and become one of the world's top 25 direct sales companies, based on revenue.

Despite the astounding growth rate and its current size, PM-International has remained a family business.

Founder and CEO Rolf Sorg has not only stayed on top of the strategic focus since the beginning but he is also involved in decisions affecting the day-to-day life of thousands of distributors all around the world.

BUSINESS MODEL

A successful concept

The distribution system chosen by PM-International deliberately abandons traditional distribution methods and relies instead on direct contact with the consumer. This allows first-hand communication of product advantages and results with customers.

“Due to its marketing network that relies on independent distributors, the company is at the heartbeat of the customer”. He added: “This allows direct communication and fast response to the market needs.”

Professor Dr. h.c. Lothar Späth (a former Minister President in Germany) described the successful concept of PM-International as follows:

BUSINESS MODEL

A fair and reliable compensation system

With PM-International, everybody has an equal opportunity to generate additional income, regardless of their social status, job, training or financial status. The only thing that matters is your willingness and desire to work.

Our distribution partners are free to invest as much time and energy into their activity with PM-International as they want, and there is nearly no limit to how much extra income they can generate.

The independent distribution partners are entitled to the support of a global team of experienced trainers, a network of subsidiaries and a tailored training program. Other benefits include

incentives such as car and travel programs.

In 2013, PM-International was rated for the first time by the German Association for Technical Inspection (TÜV Hessen) as certified Direct Sales. The certification is verified once a year.

PAULO COELHO

Marilou Pedretti

Esthetician
33 years old

“I was immediately fascinated by the quality and the power of the products. Due to this I was able to earn around 1.000 € in my first month just sharing my excitement with a lot of costumers and people who looked for opportunities like this. PM has become more than a job, it is a passion. I can now travel the world, having a great team in more than 15 countries. The products have changed my life, but especially that of my customers and the people I love. The opportunity gives me the chance to help other people changing their lives, having freedom and pleasure. It does not matter what background they have; everyone can become successful and this is most important to me. Today I have an income that gives me the chance to live a life that I always dreamed of.”

Lau Ying & Lau Siu Chuen

Kindergarten Teacher
56 years old

“I used to be a kindergarten teacher. I was always busy at work and had to work overtime. Juggling between work and the responsibility as a wife and mother, I did not have time to take care of myself. In 2016, I tried Fitline products. In just three months, my body got a lot better. My husband was very supportive of my PM career as he has seen the changes in my health and his own. Together, we started to share with my friends and family and we were earning 1.000 € in the first month. We started to share our success and PM’s amazing business opportunity. PM changed our lifestyle. We now have our own business and reached financial freedom. The 2019 epidemic made us even more aware of the importance of a healthy body. PM’s Autoship program allowed us to enjoy a stable income. We believe that if we can do it, anyone can do it.”

Sunny B. Pinyin

Information Security Engineer & Social Entrepreneur
51 years old

“My name is Sunny B. Pinyin, originally from Cameroon, Central Africa. I am a Information Security Engineer and Social Entrepreneur out of the New York/ New Jersey metro area. I started with PM. in November 2019, after a brief conversation with a great friend of mine. He sent me a few sachets of the FitLine products to try. By my second day of taking both the Powercocktail and the Restorate, I could feel the difference. The next 2 weeks I decided to draw up my plan of action. Once I traveled to the Headquarters of Americas and met with the corporate team, my business skyrocketed. I was able to make a little under US\$ 300 my first month. As the days went by, I became even more passionate and excited about the possibilities. I am really having the time of my life as a PM Team Partner.”

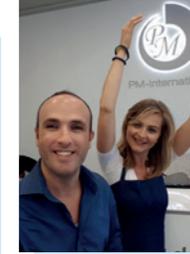

Karen Wong

Housewife
42 years old

“I have been a housewife for more than 10 years before starting my PM business. I started taking Fitline products because my health was deteriorating, and I was looking for products to help improve my health. After taking the products, my friends and family also started to notice my results! Through sharing the products, I earned 500 € within just 6 months. The people I introduced the products to were so thankful for their results. This motivated me to continue my PM business. I am so excited because of the extra income for my family and I decide how much time I want to spend with my PM business. Thanks to PM, my health has improved, we are financially stable, and I get to travel with my husband.”

Simonetta Tortore & Gianluca Pegolo

Bank Employee & Engineer
41 & 42 years old

“We met FitLine 5 years ago and we immediately understood that it could also be the right way to improve our economic situation. I (Simonetta) had quit from a permanent position in the bank because I didn’t want to get to the pension by staying 8 hours in the office every day. I (Gianluca) am an engineer who had a small company for 12 years, but there was more problems than satisfactions. With PM we started earning the first money by recommending the products we used: in less than a month we earned 400 €, which allowed us to pay some arrears. We went ahead and now we have a team of people who do what we do. PM has given us the opportunity to find our redemption, not only on an economic level, but also as a way of life. And if we can do it, everyone who wants to change it’s life for the better can do it!”

Peter Uhl

Technical Business Economist
56 years old

"My name is Peter Uhl, I am 56 years young. As a technical business economist I live in Radolfzell on the beautiful Lake Constance. 2 ½ years ago I came across the great products of FitLine and I achieved very good results within a very short time. I developed a great, small team and within 3 months I was IMM. I already earned 700 € at that time. Apart from my main profession, I continued to expand my business with PM to save money for my retirement. Today, I am VP and I picked up my own company car end of March. Many thanks to PM!"

Akemi Yoshida & Isamu Yoshida

Housewife & Self Employed
58 years old

"Before encountering PM, I was working part time, which often took up the entire day. I did not have enough time and energy to spent quality moments with my loved ones. My first encounter with PM came when I was invited to a business presentation and experienced for myself the good effect after drinking the products. I started sharing about the products and business with my friends and even went back to my hometown to promote PM to everyone. Our first income was about 1.000 € within the first 3 months. It was a stable income that I did not enjoy previously. With all the hard work put into my PM business, I have been blessed with meeting even more good working partners, leading me to make a generous income. Now, I can make 10 times as much as I did with my old part time job without having to invest as much time as before."

Andrea Walker

Mother
47 years old

"My name is Andrea Walker and I am a mother of a 10-year-old son. In 2017 a friend recommended the products to me. After a short time I've noticed great results. I started talking about the products enthusiastically and almost 3 months later I took the decision to build my own business. PM convinced me with the many motivated, open-minded people and their stories, the team spirit filled with respect and appreciation, as well as the practiced company philosophy. I wanted to work from home, be with my son and manage my time independently. After almost one year I reached the level of IMM, ordered my own new car and was invited for one week of free holidays. Today, I earn just as much as in my previous job but I have less work and I support people on their way to financial freedom."

JongWon Kim

Office Worker
44 years old

"Hello, I am JongWon Kim. I was an ordinary office worker for 16 years, before I started with PM. As I went through frequent night shifts with lots of drinking with my colleagues, my health got noticeably worse. Therefore, one of my friends introduced me to Activize. I loved it right away. PM products are amazing in terms of quality and cost-effectiveness, so I introduced the products to my family and friends. By doing so, I was able to build my own PM Business, and was able to quit my former job. With many helps, my business grew very fast, and I was able to earn more than 1.000 € within just two months. Currently, I enjoy the time and economic freedom that PM was able to grant me. I am looking forward with the future and I firmly believe PM will lead to me to a long-lasting happy life with my family. Thank you."

Family Kaltschmidt

Employee in Public Service & Craftsman
35 & 38 years old

"We are the Kaltschmidt family. I'm Claudia, 35 years old, and I'm Dennis, 38 years young. We are married and have 2 small children and live in Königsosterhausen near Berlin. I (Claudia) am an employee in the public service. I (Dennis) am a craftsman and 2 ½ years ago we started our business with PM-International because we simply have great product results and we enjoy passing this opportunity on to nice and likeable people. I (Dennis) have reached IMM level now and earned 1.220 € and I (Claudia) am MM and I earned 517 €. We drive a free company car. We are in the pension scheme and this year we are going on a free holiday for the 2nd time. It wasn't always easy but we learned from our mistakes. Stay strong and continue. We have a super great team now and we are incredibly grateful for that."

Ruby Guzmán

Pharmaceutical Chemist
37 years old

"My name is Ruby Guzmán, I am 37 years old and I own an independent local Drug-store in Calama since 7 years, where I develop my profession as pharmaceutical chemist, homeopath, cosmetologist and beautician. I was recomended FitLine Products in October 2017. I bought the products because Gemany is their origin country, which gave me security. When I began to drink the products I felt amazing and full of energy. I also felt more focused, started to sleep better and woke up more recovered. I started recommending them to my family, friends and all the people I met. After 5 months I had earned my first extra US\$ 500. Today I absolutely know that PM is the great opportunity of my entire life and that I will fulfill all my dreams."
